

Day 5 Games – Handouts and Directions

Key Truth - God's creation was completed on Day 6 when he created all of the animals, including the dinosaurs, and created man in the image of God for whom all of creation exists.

Dino Matching Game –

This game will give the children an opportunity to consider again the creative mind of God. The amazing variation found in the dinosaur kind is yet another example of God's richness to all of His creatures.

This is a regular matching game. You will want to print out two copies of the following image. Then cut the dinosaur pictures apart. If you can glue them to card stock or construction paper before cutting they will be much easier to play with. The children can use the stamp from the Snacks craft to decorate the back side of the cards to make them even more fun to play with. The children take turns flipping the cards over until all matches are found.

ENJOY!
